Profile

Senior Frontend Engineer with 5+ years of experience designing and scaling modern web applications in React and TypeScript. Expert in frontend architecture, API integration, and AWS-based deployments. Proven track record delivering performant and maintainable platforms serving millions of users. Passionate about developer experience, clean code, and mentoring teams to build scalable, high-quality products.

Experience

2022–Now

EPAM Systems

Senior Software Engineer

Yerevan, Armenia

Responsibilities:

- Engineered and scaled React applications for telecom and enterprise clients (1M+ active users), improving performance and maintainability.
- Migrated testing framework from Jest to Vitest, reducing CI runtime by 55%.
- Architected frontend with React, Redux-Observable, TypeScript, AWS (Cloud-Front, S3, Lambda, CloudWatch), ensuring scalability and security.
- Mentored 5 engineers and introduced a merge checklist reducing production bugs by 20%.
- Collaborated with QA, Product Managers, and Backend teams to align technical solutions with business goals.

Stack: React, Redux-Observable, TypeScript, AWS, Vitest, Jest, Webpack, Node.js

2021–2022

Digisoft LLC

Software Engineer

Yerevan, Armenia

Responsibilities:

- Developed scalable web applications using React, Redux, TypeScript, and Yandex Maps API (50K+ DAU).
- Optimized map rendering performance, reducing initial load time by 30%.
- Refactored legacy class components into functional ones with hooks, improving maintainability.
- Integrated REST APIs ensuring smooth performance across browsers and devices.

Stack: React, Redux, TypeScript, Webpack, Yandex Maps

2020–2021

ITHD LLC

Software Engineer

Yerevan, Armenia

Responsibilities:

- Built and maintained React-based Admin Panels with Ant Design for enterprise workflow management.
- Improved homepage load speed from 4.2s to 2.1s, increasing client satisfaction and engagement.
- Converted Figma designs into responsive and accessible interfaces across devices.
- Delivered features in Agile sprints in collaboration with backend and QA teams.

Stack: React, Redux, Thunk, TypeScript, Webpack, Ant Design

Skills

- **Languages:** JavaScript (ES6+), TypeScript, Node.js
- **Frontend:** React, Next.js, Redux (Saga, Observable), React Router
- **Styling & UI:** Material UI, Ant Design, Sass, CSS-in-JS, BEM
- **Testing:** Vitest, Jest, React Testing Library, Enzyme

- **Backend:** Node.js, Express.js, REST API design
- **DevOps:** AWS (CloudFront, Lambda, S3, CloudWatch), CI/CD, Docker
- **Tooling:** Webpack, ESLint, Prettier, Storybook, Husky
- **Collaboration & Leadership:** Mentoring, code reviews, Agile/Scrum, cross-functional teamwork

Education

2015–2021 **Bachelor's Degree in Informatics and Applied Mathematics** Yerevan State University
 Diploma Thesis: Investigation of proof complexities for formulas constructed by Tsejtin's method on the base of some graphs.

Selected Achievements & Open Source

Liberty Global Hackathon

Won People's Choice and Best Result for a serverless React + AWS diagnostic tool.

Vitest

Added `toEqual` extension for custom test assertions.

BEAM Blockchain

Designed a seamless UI for domain management interface.

deps-fe-labeling-tool

Fixed UI rendering bug under specific zoom/display settings, improving accessibility.

Certifications

AWS Certified Cloud Practitioner

AWS Certified Developer – Associate
